SAMBUTAN
GUBERNUR SUMATERA BARAT
PADA RAMAH TAMAH DAN MAKAN MALAM BERSAMA DENGAN PESERTA
SEMINAR NASIONAL EKONOMI, MANAJEMEN, AKUNTANSI KE 2 (SiNEMA2)
FAKULTAS EKONOMI UNIVERSITAS BUNG HATTA
TANGGAL 27 AGUSTUS 2015

Bismillahirrahmanirrahim
Assalamu'alaikum Warrahmatullahi wabarakatuh.

- Yang Terhormat Wakil Gubernur, Sekprov, para Staf Ahli, para Asisten, para Kepala Biro dan Kepala Badan dan Dinas Instansi Lingkup Pemerintah Provinsi Sumatera Barat.
- Yang Saya Hormati - Saudara Rektor Universitas Bung Hatta, Saudara-Saudara Wakil Rektor dan para pimpinan struktural dilingkungan Universitas Bung Hatta
- Yang Saya Hormati – Peserta Seminar Nasional teristimewa Saudara-saudara yang datang dari luar daerah seperti Yogyakarta, Surakarta, Semarang, Lampung dan Banten. Selamat datang di Sumatera Barat.....

Syukur Alhamdulillah kita persembahkan kehadiran Allah SWT atas izin serta karunia-Nya kita masih diberikan kesehatan untuk mengikuti Seminar Nasional dan ramah tamah dalam keadaan sehat wal'afiat.

Hadirin yang saya hormati,

Terbentuknya pasar tunggal dalam kerangka MEA 2015 bukan hanya mensyaratkan akan terjadinya aliran bebas di pasar barang. Pasar tunggal

juga mensyaratkan terjadinya pergerakan bebas dari faktor produksi tenaga kerja. Tenaga kerja yang dapat bebas berpindah antar satu wilayah ke wilayah lain merupakan tenaga kerja terampil (*skilled labor*). Tenaga kerja terampil sendiri adalah pekerja yang mempunyai ketrampilan khusus, pengetahuan, atau kemampuan di bidangnya. Pekerja itu bisa berasal dari lulusan perguruan tinggi, akademi, atau sekolah teknik.

Keberadaan MEA tentu akan memberikan dampak terhadap pasar tenaga kerja, baik dampak positif maupun dampak negatif. Akhirnya dengan kehadiran MEA 2015 akan memberikan peluang dan tantangan yang ada dihadapan kita. Inilah saatnya, melakukan refleksi, merapatkan shaf, menyatukan langkah, mengubah wacana menjadi kerja nyata. Dalam konteks seminar nasional ini, salah satu langkah nyata menghadapi MEA 2015 adalah hasil riset yang baru saja saudara-saudara presentasikan dalam Seminar Nasional tadi, semoga hasil ini bermanfaat untuk menata posisi dan strategi Indonesia dalam menyongsong MEA 2015.

Hadirin Yang Saya Hormati,

Saya menyambut baik atas terselenggaranya acara ramah tamah dan makan malam ini, dimana acara ini bertujuan untuk menjalin silaturahmi antara Pemerintah Daerah Provinsi Sumatera Barat dengan Universitas Bung Hatta serta perguruan tinggi lainnya yang mengikuti Seminar Nasional ini. Walaupun acara ini bersifat santai tapi memiliki momentum dan substansi. Momentum yang dimaksud adalah bahwa pada saat ini kita dihadapkan pada situasi lingkungan global dan regional yang ditandai dengan pesatnya persaingan antar Negara.

Hadirin yang saya hormati,

Dalam kesempatan ini saya mengajak seluruh hadirin untuk dapat menjalin silaturahmi dan rasa kekeluargaan diantara kita. Para periset, akademisi, mahasiswa untuk dapat mengapresiasi kapasitas, kompetensi dan kemampuan profesionalnya. Saya menyambut baik dukungan Universitas Bung Hatta untuk turut aktif dalam mendorong pembangunan Provinsi Sumatera Barat.

Akhirnya, sekali lagi saya ucapan terimakasih sekaligus mengajak kepada kita semua, untuk senantiasa kita tingkatkan

tali silaturahim, rasa kekeluargaan, solidaritas dan pengabdian, dalam mendukung program pembangunan pemerintah Provinsi Sumatera Barat yang saat ini terus kita laksanakan, demi terwujudnya kemajuan dan peningkatan kesejahteraan masyarakat di daerah "bumi rang awak" yang sama-sama kita cintai.

Demikian yang dapat saya sampaikan, semoga ramah tamah yang kita laksanakan hari ini senantiasa memberikan manfaat bagi kita semua dan senantiasa diberkahi oleh Allah SWT – Tuhan YME. Amin.

Terima kasih atas perhatiannya.
Bilahi Taufiq Wal Hidayah

Wassalamua'laikum warrahmatullohi wabarakatuh.

GUBERNUR SUMATERA BARAT

KATA PENGANTAR

Assalamu'alaikum Warahmatullahi Wabaratuh,

Puji syukur kita panjatkan kehadiran Allah Yang Maha Kuasa dan Maha Mengetahui, atas rahmat dan karunia-Nya, Seminar Nasional Ekonomi, Manajemen dan Akuntansi 2 (SiNEMA2) "Kesiapan Indonesia Dalam Pasar Bebas Asean Melalui Penguatan Implementasi Corporate Governance Yang Sehat", dapat berlangsung dengan baik. Seminar Nasional ini diselenggarakan atas kerjasama Fakultas Ekonomi Universitas Bung Hatta Padang dengan Fakultas Ekonomi Universitas Islam Yogyakarta. Pada seminar ini mempresentasikan hasil-hasil penelitian dibidang ekonomi, manajemen dan akuntansi. Artikel terbaik akan dipublish pada Jurnal Akuntansi dan Auditing Indonesia (JAAI), Jurnal Siasat Bisnis dan Economic Journal of Emerging Markets, Fakultas Ekonomi Universitas Islam Indonesia - Yogyakarta.

Tujuan dari penyelenggaraan Seminar Nasional ini merupakan perwujudan dari peranan perguruan tinggi sebagai penghasil berbagai gagasan/pikiran yang tertuang dalam berbagai hasil penelitian guna meningkatkan kesadaran seluruh pemangku kepentingan dalam menyambut berlakunya Masyarakat Ekonomi ASEAN (MEA) pada tahun 2015 ini, dan memberi kontribusi konkret berupa hasil riset yang dilakukan oleh para *expert* di bidangnya masing-masing sebagai pedoman bagi pengambil kebijakan, serta sebagai forum bertukar pikiran bagi para akademisi, praktisi, birokrat guna bersama-sama berkontribusi dalam Pasar Bebas Asean.

Seminar Nasional ini, menampilkan pembicara kunci (*keynote speech*) yaitu: Dr. Wimboh Santoso (Mantan Executive Director IMF), Nur Harjanto (Pengusaha Nasional/Kandidat Doktor) Dr. Abdul Kharis Almasyhari, SE,MSi.,Ak (Komisi XI DPR RI), disamping itu dalam Seminar Nasional ini juga dipresentasikan 46 makalah yang berasal dari Peneliti Fakultas Ekonomi Universitas Bung Hatta dan beberapa Perguruan Tinggi di Indonesia. Akhirnya pada kesempatan yang ini panitia mengucapkan terima kasih pada berbagai pihak yang telah mendukung terselenggaranya Seminar Nasional ini dengan baik.

Insya Allah prosiding ini bermanfaat bagi kita semua.

Wassalamu'alaikum Warahmatullahi Wabarakatuh,

Padang, Agustus 2015

**IDENTIFIKASI DAN PENGEMBANGAN KOMPETENSI KEPEMIMPINAN
UNTUK LEVEL LOWER MANAGEMENT PENDIDIKAN TINGGI DI INDONESIA**

**Afridian Wirahadi Ahmad,Herri, Laura Syahrul
Universitas Andalas**

Abstract

Pendidikan tinggi di Indonesia bukan sekadar penghasil sumber daya manusia yang berkualitas namun juga sebagai industri yang mampu mendorong pertumbuhan ekonomi negara. Untuk itu dibutuhkan pemimpin atau pengelola pendidikan tinggi yang memiliki kompetensi kepemimpinan dan manajerial yang baik. Penelitian ini bertujuan untuk mengidentifikasi dan mengklasifikasikan kebutuhan kompetensi kepemimpinan perguruan tinggi terkhusus untuk level manajemen terendah yakni ketua Jurusan. Dengan dilaksanakannya penelitian ini, diharapkan dapat terumuskan standar kompetensi kepemimpinan perguruan tinggi yang dapat dijadikan dasar dalam memilih, mengembangkan, dan mengevaluasi pemimpin perguruan tinggi. Pendekatan penelitian bersifat eksploratif dengan metode campuran, yaitu kualitatif dan kuantitatif yang digunakan secara *sequential*. Data penelitian dikumpulkan dengan menggunakan berbagai teknik yaitu *indepth interview* dan *Focus Group Discussion* (FGD) dan menggunakan *instrument* kuesioner. Hasil penelitian menunjukkan terdapat delapan kompetensi utama yang harus dimiliki dan dikuasai untuk level manajemen tingkat jurusan dan sembilan jenis pelatihan/pendidikan untuk menguasai kompetensi tersebut.

**PENGARUH CURRENT RATIO, DEBT TO EQUITY RATIO,
TOTAL ASSETS TURN OVER TERHADAP RETURN ON INVESTMENT
(Studi Kasus: Perusahaan Logam dan Produk Sejenisnya yang terdaftar di Bursa Efek
Indonesia)**

Agus Dwiwitoko , Listiana Sri Mulatsih , Yuhelmi
Universitas Bung Hatta Padang

Abstract

Purpose of this research is to find out the influence of current ratio, debt to equity ratio, total assets turn over against return on investment of metal company and other metal products that are registered in indonesia stock exchange in period of 2010-2013. The methods of analysis that are used in this research are multiple linear regression and classical assumption that consists of normality test, multicollinearity test, heteroskedasticity test, autocorrelation test and also hypothesis test, F test and T test that are processed by Eviews program. Based on hypothesis test, it was found that current ratio has significant positive effect against the return on investment on metal company and other metal products, debt to equity ratio has significant effect against the return on investment on metal company and other metal products, total assets turn over has no effect against the return on investment on metal company and other metal products.

Keywords: *current ratio, debt to equity ratio, total assets turn over, and return on investment.*

IMPLEMENTASI RULES AND DISCRETION POLICY DALAM PENGELOLAAN SEKTOR MONETER DI INDONESIA

Alvis Rozani
Universitas Bung Hatta Padang

Abstract

A debate among economists about whether the central bank can use monetary policy that is discretionary or should base its policies on a rule has since long been a controversy. Although in general among central banks prefer the discretionary approach to policy, but the change in the monetary policy framework much going on lately have revived old debates. In this policy that are discretionary policy is considered able to pose a major problem, known as dynamic inconsistency problem is often also called the time inconsistency problem. With the implementation of the monetary policy framework based on a rule, the central bank is forced to not doing the cheating. Although in the short term within the framework of monetary policy cannot make adjustments upon changes in the condition of the economy that faced at any given moment, in the long run its policies can be optimal because it does not produce inflationary bias. With a frame like this, the monetary policy framework the selected central banks will be very dependent from the shape of the selected rule. The other group, who mainly appeared in recent times, basing policy rules on monetary policy targets, not on the instrument. Target levels of inflation or the growth of the gross domestic product (GDP) nominally on the level of a specific entry in this category. The form of the policy rule based on the objective of the central bank, specially on the central bank targeting inflation, perhaps can be seen as a form of compromise over the approach to rule over the instruments that are stiff. In this case, the central bank's monetary policy is represented by changes in the level of the instrument can still be discretion, but are limited by a rule in the form of a target announced explicitly. So, this last approach is often also referred to as a policy framework that is "constrained discretion".

Keywords: rule policy, discretion policy, constrained discretion policy

PERAN PATUH HUKUM DAN TAAT BERAGAMA TERHADAP NIAT BELI DAN PERASAAN PASKA BELI PRODUK BAJAKAN

Anas Hidayat¹,Sri Rejeki Ekasasi²

¹ Universitas Islam Indonesia, Yogyakarta

² Sekolah Tinggi Ilmu Manajemen – Yayasan Keluarga Pahlawan Negara (STIM – YKPN) Yogyakarta

Abstract

Tujuan dari penelitian ini adalah untuk melihat pengaruh aspek kepatuhan hukum konsumen, respek konsumen terhadap aspek legalitas produk bajakan, dan aspek ketaatan beragama konsumen terhadap niat beli dan perasaan paska beli software computer dan CD music bajakan. Penelitian ini diharapkan akan memperoleh sebuah model dengan pendekatan cultural dan structural untuk menekan penggunaan produk bajakan. Data primer akan dikumpulkan dari dua populasi, kelompok mahasiswa dan kelompok pekerja, dari empat kota besar di Indonesia yaitu Jakarta, Semarang, Surabaya, dan Yogyakarta. Lebih kurang 128 responden terlibat dalam penelitian ini. Hasil penelitian menunjukkan bahwa hanya variable sikap patuh hukum yang terbukti berpengaruh signifikan terhadap niat beli produk software bajakan, sementara ketaatan beragama dan niat beli keduanya terbukti memberikan pengaruh signifikan terhadap perasaan setelah membeli produk software komputer bajakan.

Keywords: aspek kepatuhan hukum, aspek legalitas produk, aspek ketaatan beragama, niat beli, perasaan paska beli

**ANALISIS PENGARUH KUALITAS ASET PRODUKTIF TERHADAP TINGKAT
KESEHATAN BANK PADA BANK UMUM DI INDONESIA.**

Angrita Denziana,H a n i n u n
Universitas Bandar Lampung

Abstract

The purpose of this study was to analyze the effect of the quality level of the productive assets of the bank. In daily activities functioning bank intermediation institution that is as an institution that gathers and distributes funds from surplus unit to deficit unit. Channeling funds into bank unit deficit is done through a wide range of credit products offered both to credit used personally or company. The owned credit bank it's assets productive or assets generate but not just credit as the only productive asset owned by the bank there are other productive assets owned by the bank that the bank funds placement with other banks, securities owned, investment capital, acceptance speeches are bills, bills and derivatives, as well as administrative account transactions.

Keywords: *Productive Assets Quality, The Health of Bank*

**PERSPEKTIF FRAUD DIAMOND THEORY DALAM MENJELASKAN EARNINGS
MANAGEMENT NON-GAAP PADA PERUSAHAAN TERPUBLIKASI DI
INDONESIA**

Bese Nur Amaliah, Yeni Januars, Ewing Yufisa Ibrani
Universitas Sultan Ageng Tirtayasa

Abstract

Most of previous researches in earnings management literature focused in examining accrual earnings management and real earnings management, while the other type of earnings management, non-GAAP earnings management, did not obtain much attention from researchers and regulators. This last earnings management type gives very bad effect for company performance as well as for company operation. We realize this issue and its lead us to conduct research in non-GAAP earnings management area. The purpose of this study was to investigate why earnings management non-GAAP was happened from Fraud diamond theory (FDT) perspective. FDT is a theory which previously used in auditing area, to explain why fraud in a company can be happen. Our research try to use this establish theory, from auditing area, to explain why managers conduct non-GAAP earnings management.

We choosed four FDT indicators to explain this fenomenan, which include stress, opportunity,, rationalization, and capabilities. Our sample contained 42 companies from non-banking and non-financing industries from 2010 to 2013 and we used purposive sampling methode to collect our sample, which result in 168 firms-years observation as our overall sample. By using logistic regression, our investigation found that stress and rasionalization did not motivate managers to conduct earnings managemen non-GAAP while opportunity and capabilities indicators have the opposite result from the two previous indicators. This findings showed that in indonesian listed companies, opportunity and capabilities are two aspects that should be given a strong attention from indonesian regulator in oerder to reduce earnings management non-GAAP.

*Key words:*earnings management non-GAAP, Fraud Diamond Theory, restatement

**ANALISIS POTENSI DAN TANTANGAN PRODUK UKM BORDIRAN / SULAMAN
SUMATERA BARAT DALAM MENGHADAPI MEA 2015**

**Dahliana Kamener

Abstract

The Potential of Industrial development SME for embroidery product is very good. However, the Industry still much constrained by internal and external environment such as internal is Resources of the company like management, capital, quality of product and the quality of competition of the industry itself. And from the external environment, it can be technology. So many companies are especially SMEs industrial embroidery whose their development are still small in decades. The existences of industrial SMEs have an important role in the business world, especially to improve the economy of community. It needs real action in efforts that it should be made either from the industry itself and the government assistance. This study aimed to analyze the Potential and Challenge on SME for Industrial embroidery in West Sumatera. The benefits to the industry, especially SMEs Industrial embroidery to be able to improve and consider the factors that can affect the quality of competitive strategy in this industry, which the factors influenced such Resources Ability, strategic asset, knowledge management,

**PERAN MODAL SOSIAL DALAM MENINGKATKAN KINERJA
LUMBUNG PITIH NAGARI UNTUK PEMBANGUNAN PERTANIAN
DI SUMATERA BARAT***

Dahnil Johar
Universitas Bung Hatta

Abstract

Tulisan ini bertujuan untuk mengetahui faktor penyebab lembaga keuangan informal (LPN Puau Mainan) dapat eksis dan berperan untuk Usaha Tani Kecil (UTK) di daerah pedesaan, dan elemen-elemen dasar serta model lembaga keuangan yang efektif untuk UTK. Objek penelitian adalah LPN Pulau Mainan di kabupaten Dharmasraya. Data dianalisa dengan metode deskriptif kualitatif dan kuantitatif dengan kerangka analisis rekonstruksi meliputi analisis dekonstruksi dan sintesis (Martius, 2004).

Dari hasil analisis penelitian disimpulkan bahwa kesesuaian karakteristik lembaga keuangan dengan sifat dan dinamika UTK, efektivitas pelayanan kredit, dan kemampuan mobilisasi modal internal dalam bentuk modal kolektif (simpanan wajib, simpanan pokok dan simpanan sukarela) merupakan faktor-faktor penyebab efektivitas peran Lumbung Pitih Nagari (LPN) Pulau Mainan melayani UTK di daerah penelitian. Efektivitas peran LPN Pulau Mainan sangat ditentukan oleh peran modal sosial (nilai-nilai agama dan nilai-nilai adat) yang mendasari kegiatan lembaga, terutama pendirian lembaga, pelayanan kredit, dan mobilisasi modal internal. Kemudian dari hasil analisis disimpulkan pula bahwa elemen-elemen dasar lembaga keuangan yang efektif untuk UTK di pedesaan meliputi orientasi pendirian lembaga yang berpihak pada kepentingan UTK di pedesaan, kesesuaian karakteristik lembaga dan dinamika UTK, efektivitas pelayanan kredit dan kemampuan mobilisasi modal internal.

Berdasarkan elemen-elemen dasar tersebut, maka model lembaga keuangan yang efektif untuk UTK di pedesaan idealnya berdasarkan pada prinsip keberpihakan pada kepentingan UTK dalam bentuk kesesuaian karakteristik lembaga keuangan dengan sifat dan dinamika UTK dan efektivitas pelayanan kredit dan prinsip kemandirian dan keberlanjutan lembaga melalui mobilisasi modal internal. Salah satu lembaga yang memenuhi kriteria ini adalah Lumbung Pitih Nagari (LPN Pulau Mainan)

Kata kunci : lumbng pitih nagari , modal sosial, nlai-nilai agama dan nilai-nilai adat.

KESIAPAN PEMERINTAH SUMATERA BARAT DALAM MENGHADAPI MASYARAKAT EKONOMI ASEAN (MEA)

Deswita Rosra
Universitas Bung Hatta

Abstract

Perkembangan perekonomian sekarang ini semakin pesat terutama dalam dunia perdagangan baik secara global, regional maupun nasional. Bagi negara Indonesia sebagai salah satu negara berkembang cukup aktif memainkan perannya dalam bidang perdagangan, apalagi dengan bergabungnya negara Indonesia dalam perdagangan bebas di tingkat ASEAN yang dikenal AFTA dan ikut sertanya Cina dikenal AC-AFTA yang telah diberlakukan tahun 2010, peran negara Indonesia semakin meningkat untuk memajukan perekonomian negaranya.

Disamping itu, negara Indonesia juga dihadapi dengan perdagangan bebas Masyarakat Ekonomi ASEAN (MEA) yang akan berlaku akhir Desember 2015, akan semakin banyak persaingan yang akan dihadapi negara Indonesia pada khususnya dan negara-negara ASEAN pada umumnya dalam memajukan pertumbuhan ekonomi dan meningkatkan taraf hidup rakyat di tingkat ASEAN.

Masyarakat Ekonomi ASEAN merupakan integrasi ekonomi regional yang meliputi *free trade area*, penghapusan tarif perdagangan antar negara, pasar tenaga kerja dan modal yang bebas serta kemudahan arus keluar masuk prosedur kepabeanan antar negara ASEAN. Bagi negara-negara ASEAN umumnya dan negara Indonesia pada khususnya hal ini merupakan suatu keuntungan atau merupakan tantangan dan ancaman tentu tergantung dari kesiapan masing-masing negara dalam menghadapi adanya Masyarakat Ekonomi ASEAN (MEA).

Pelaksanaan MEA akan memberikan dampak yang sangat bervariasi ada dampak positif dan dampak negatif bagi dunia industri dan perdagangan anatara lain terciptanya pasar internasional yang lebih luas dan terjadinya persaingan pasar internasional yang akan semakin berkompetisi. Untuk itu tujuan utama MEA yang akan dicapai adalah mendorong efisiensi dan daya saing ekonomi di kawasan.

Dalam mewujudkan efisien dan daya saing ekonomi sangat ditentukan kemampuan daya saing masing-masing negara atau daerah apa lagi bagi negara Indonesia dan daerah Sumatera Barat khususnya yang memiliki sektor-sektor andalan untuk masuk ke pasar bebas MEA seperti pariwisata, ekonomi kreatif dan tenaga kerja (SDM dan pendidikan). Dalam hal ini pemerintah Kabupaten/Kota harus memperhatikan dan memprioritasi sektor-sektor andalan tersebut untuk bisa bersaing, karena keberhasilan negara Indonesia menghadapi peluang dari berlakunya MEA sangat ditentukan dari kemampuan dan daya saing setiap daerah.

Rahmawati - FEB-UNS Surakarta

Abstract

This study aims to explore the relevance of board governance, corporate social disclosure and firm value of non-financial public companies in the Indonesia Stock Exchange. The background of this study is the importance of board governance, social corporate disclosure and firm value in Indonesia, where many social problems involving the company. In addition, this study is also driven by previous researches on board governance, firm value and corporate social disclosure which obtain different results. However, this study is original because the use of corporate social disclosure as a mediating variable which influence board governance on firm value.

Using secondary data from annual reports published on the Indonesia Stock Exchange in 2009, 2010, and 2011. With the population of 1280 observations, this study collects the sample of 217 observations. Processing data of this study uses the path analysis method by IBM SPSS 20th version.

This study finds that board governance can influence firm value whether directly or mediated by corporate social disclosure. The direct effect occurs at the proxy proportion of independent board and size board governance. The effect through the mediation of corporate social disclosure produces perfect mediation with the size of board governance, size audit committee, and proportion independent audit committee.

Keywords: Corporate Governance, Board Governance, Corporate Social Disclosure, and Firm Value.

STRATEGI PENGEMBANGAN INDUSTRI RENDANG SEBAGAI MAKANAN TRADISIONAL UNGGULAN MINANGKABAU BERDAYA SAING GLOBAL DALAM MENUNJANG VISI INDONESIA KREATIF 2025

**Eka Rosalina,Afridian Wirahadi Ahmad
Politeknik Negeri Padang**

Abstract

Penelitian ini bertujuan untuk membahas strategi pengembangan rendang makanan tradisional minangkabau yang menjadi unggulan di Propinsi Sumatera Barat serta memberikan rekomendasi kebijakan dengan menggunakan metode SWOT dan QSPM agar rendang makanan tradisional minangkabau berdaya saing global. Rendang sangat mudah ditemukan di semua rumah makan minang diseluruh dunia, namun rendang masih belum menjadi makanan unggulan untuk disajikan diberbagai acara atau sajian makanan di hotel-hotel. Hal ini mengindikasikan bahwa daya saing rendang masih sangat rendah karena hanya tersedia dirumah makan minang saja. Penelitian dilakukan dengan pendekatan kualitatif dengan teknik pengumpulan data melalui wawancara dan FGD. Analisa data dilakukan dengan alat analisis IFAS, EFAS, dan SWOT untuk melahirkan strategi yang tepat untuk pengembangannya. Hasil analisis faktor internal diperoleh skor 3,1 sedangkan analisis factor eksternal diperoleh nilai skor 2,9. Hal ini menandakan bahwa rendang tersebut mampu mempertahankan faktor-faktor kekuatan yang ada untuk dapat mengatasi faktor-faktor kelemahannya. Berdasarkan matriks SWOT diperoleh posisi strategi rendang berada pada kuadran IV yakni strategi utama pengembangan yang tepat berdasarkan matrik internal-eksternal adalah strategi *Growth and Build* atau juga disebut *stability strategy* yakni terdiri dari strategi penetrasi pasar, pengembangan pasar dan strategi pengembangan produk.

Kata Kunci: Strategi model Pengembangan, SWOT, IFIS, IFES, Rendang

Abstract

The purpose of this study is to examine the role of customer value as moderating variable on the relationship between service quality, institution image and public satisfaction. The study population is public customer who received land certificate from BPN of Padang Pariaman that accounted for 972 people while the usable samples were 272 respondents. In order to test hypotheses development, this study performed Moderated Regression Analysis (MRA). The results of analysis found that first, service quality and institutional image positively and significantly effected customer satisfaction. Second, customer value was found to have positive and significant effect on customer value. Third, customer value was not found to have moderating effect on relationship between service quality, institution image and public satisfaction. The findings of the study suggested that in order to enhancing customer satisfaction, it is suggested to increase the implementation of service quality and institutional image as well as customer value.

Keywords: Service Quality, Institutional Image, Customer Value, and Customer Satisfaction.

Abstract

Penelitian telah dilakukan di Sungai Lareh Kota Padang, dengan menguji pemberian pupuk organik *C.odorata* diiringi dengan pemberian pupuk buatan yang dilakukan terhadap tanaman padi Cisokan yang diuji coba dengan melakukan pemangkasan saat awal memasuki primordial bunga (47 hst). Percobaan telah dilakukan selama 4 bulan, dengan menghitung analisis usaha tani meliputi R/C dan keuntungan yang diperoleh selama 1 musim tanam. Metoda yang dilakukan dengan melakukan eksperiment dan kajian analisis usaha tani

$$\pi = TR - TC$$

= P.Q – TFC – TVC dimana; π = keuntungan usaha tani padi sawah ;TFC = biaya tetap; TVC = biaya variable ;P = harga gabah kering ; Q = produksi padi sawah. Dari hasil analisis usaha tani, terlihat menguntungkan adanya pemangkasan yang dilakukan saat memasuki primordial bunga, dan tidak mengurangi hasil panen gabah kering.Sebaiknya pola bisa dikembangkan agar, masyarakat petani dan berternak, bisa mengoptimalkan lahan sawah yang sempit untuk manfaat ganda.Keuntungan petani jika dihitung melalui nilai R/C berkisar 3,15, dan penghasilan kotor petani untuk setiap bukan mencapai 8,4 juta rupiah. Disarankan untuk meningkatkan kajian hingga tanaman memasuki fase salibu, dan mengkaji keuntungan usaha taninya.Pola ini selanjutnya bisa direkomendasikan kepada Pemda menjadikan suatu kebijakan, agar dijadikan suatu model dalam melakukan budidaya padi sawah yang mengintegrasikan dengan pakan ternak.

Kata kunci (key words); pupuk organik *C.odorata*, padi sawah Cisokan, R/C dan π

Abstract

The purpose of this research is to find out the effect of Capital Structure measured by DAR, DER, LDER and Liquidity measured by Current Ratio against corporate performance measured by Return on Investment (ROI) on trade, services and investment that listed on Indonesia Stock Exchange period 2011-2013. The sampling technique was using sensus sampling technique, totaling 85 companies. The analysis model is a multiple regression analysis with the program Eviews 3.

The results showed that: variable DER and Current Ratio are positive and significant effect against corporate performance (ROI). Meanwhile variable DAR and LDER are no significant effect against corporate performance (ROI). The four variable can explained Return on Investment variable asa big as 14,3%, while the 85,7% have explained by the other variable which did not include in this model.

Key words: Capital Stucture (DAR, DER, and LDER), Liquidity (Current ratio), ROI.

Abstract

Penelitian ini bertujuan untuk mengetahui pengaruh variabel struktur modal yang diukur dengan *debt to equity ratio* (DER), *investment opportunity set* yang diukur dengan *market to book asset ratio* (MBA) dan likuiditas yang diukur dengan *current ratio* (LIQ) terhadap nilai perusahaan yang diprosikan melalui *Price to Book Value* (PBV) pada perusahaan Perbankan yang terdaftar di Bursa Efek Indonesia (BEI) periode 2009-2013. Populasi penelitian ini adalah 39 perusahaan perbankan. *Purposive Sampling* digunakan sebagai teknik pengambilan sampel dan 29 perusahaan terpilih memenuhi kriteria untuk dijadikan sampel penelitian. Penelitian ini menggunakan data sekunder dan analisis regresi berganda. Hasil penelitian menunjukkan bahwa struktur modal dan *investment opportunity set* memiliki pengaruh positif signifikan terhadap nilai perusahaan dan likuiditas tidak memiliki pengaruh terhadap nilai perusahaan. Sedangkan ukuran perusahaan sebagai variabel kontrol memiliki pengaruh positif dan signifikan terhadap nilai perusahaan. Secara simultan struktur modal, *investment opportunity set* dan likuiditas berpengaruh signifikan terhadap nilai perusahaan.

Kata kunci: Struktur Modal, *Investment Opportunity Set*, Likuiditas, Ukuran Perusahaan dan Nilai perusahaan.

Abstract

Educational sector contributes important role to develop every country and region. In order to win the competition, every educational business needs to develop their understanding of consumer behavior in buying decision. Based on literature review, it is found that the variables of product, price and family as determinants of consumer buying decision. The purpose of this research was to investigate the moderating effect of family on the relationship between product, price and buying decision. The research population was all students which accounted for 130 students. In order to test hypotheses, this research conducted moderated regression analysis. The results of analysis found that 1) Product, Price and Family positively and significantly influenced consumer buying decision, 2) Family was found as moderating variable and strengthened the relationship between product and consumer buying decision. However, it did not moderate the relationship between price and consumer buying decision. The research finding provide practical contribution that in order to increase numbers of new student future, it is recommended to enhancing their understanding of product, price and family.

PENGARUH CORPORATE GOVERNANCE, PROFITABILITAS DAN KARAKTER EKSEKUTIF TERHADAP TAX AVOIDANCE PADA PERUSAHAAN YANG TERDAFTAR DI BEI

Muhammad Fajri Saputra, Dandes Rifa, Novia Rahmawati
Universitas Bung Hatta

Abstract

This study aims to determine the effect of corporate governance, profitability and executive character to the activity of tax avoidance in companies listed on the Indonesia Stock Exchange in 2012-2014. The elements of corporate governance consists of a proportion of the board of directors, audit quality and audit committee as well as the elements of profitability is return on assets and the last variable is an executive character. The samples are property, real estate, and building construction companies are listed on the Indonesia Stock Exchange 2012- 2014. The samples obtained 38 companies were selected by using purposive sampling. Data analysis was performed by hypothesis testing is multiple regression. The results show that the elements of corporate governance, namely the proportion of board of directors, audit quality and audit committee did not significantly effect on activity of tax avoidance. While the return on assets and executive character are significantly effect on activity of tax avoidance.

Keywords: corporate governance, the proportion of independent board, the quality audit, the audit committee, profitability, return on assets, executive character

PENERIMAAN PAJAK PENGARUH KUALITAS INFORMASI TERHADAP SISTEM E-FILLNG

Sentot Rianda, Arie Frinola Minovia
Universitas Bung Hatta Padang

Abstract

Attitude toward e-filling has been an issue in Indonesia due to low technology acceptance among the tax payers. Therefore, many studies have been done and reveal inconclusive result. In addition, there is a lack of study utilizing information quality that affect on attitude toward tax e-filling. Thus, this study aimed to investigate the effect of information quality on attitude toward tax e-filling among tax payer in Padang, West Sumatra, Indonesia. specifically, this study test the role of perceived usefulness (PU) and Perceived ease of use (PEOU) as mediating variabel between information quality and attitude. By using primary data and convenience sample technique, we arrived with 94 questioners to be analysed. SEM-PLS with WarpPLS 3.0 program is used to analyse the data. The result show that PU and PEOU do not play a mediating role between information quality and attitude toward tax e-filling. this study has a practical and theoretical implications and discuss them in detail.

Keywords :Technology Acceptance Models (TAM), Information Quality (IQ), Attitudes On The Use Of E-Filing, Perceived Usefulness (PU), Perceived Ease Of Use (PEOU).

Abstract

The component of controlling environment has a role as foundation that has dominant impact to the success of the internal controlling system. The controlling environment influences the other elements in internal controlling system such as risk valuation, controlling events, communication and information system, and observation. The development of internal controlling system elements are based on though that internal controlling system is influenced by human resources and contributed along the events/ activities. The controlling environment focus on conducive and positive attitude by all of government management institution and official, therefore, the internal controlling system can be optimum to be applied.

*The purpose of this research is to analyze the influence of Government Internal Controlling System to the employee's performance. The sample of this research was the employees of Inspektorat Kota Solok that consists of 40 people. The data was analyzed by using classic assumption test, simple linear regression, hypothesis test (*t*-test) and determination coefficient test. Based on the data analysis, it can be concluded that there was influence of controlling environment to the employee performance about 44.6% (significant influence) and 55.4% was influenced by other factors such as risk valuation, controlling events, communication and information system, and observation.*

Keywords : Controlling Environment, Performance, Internal Controlling System

DAMPAK PENGEMBANGAN KAWASAN WISATA PANTAI PADANG BAGI KEHIDUPAN USAHA PEDAGANG KECIL

**Syafrizal chan
Universitas Bung Hatta**

Abstract

Pembangunan pada dasarnya ditujukan untuk meningkatkan taraf kehidupan masyarakat kearah yang lebih baik. Dalam kontek ekonomi makro peningkatan taraf kehidupan ini dapat dilihat antara lain pada peningkatan pendapatan, kenaikan konsumsi perkapita, dan pemenuhan gizi. Sedangkan dalam kontek mikro bisnis dapat dilihat antara lain dari kenaikan penjualan, penyerapan tenaga kerja, dan kenaikan perolehan keuntungan usaha. Penelitian yang dilakukan ini melihat sejauh mana dampak pembangunan dari aspek mikro, yaitu dampak dari pengembangan kawasan wisata Pantai Padang terhadap kehidupan usaha pedagang kecil. Hal ini penting dilakukan mengingat pengembangan kawasan Wisata Pantai Padang selalu dianggarkan tiap tahun oleh pemerintah daerah, namun secara empiris bagaimana dampaknya bagi kehidupan masyarakat, khususnya pedagang kecil belum diketahui. Penelitian dilakukan dengan metode sensus terhadap 120 pedagang kecil yang sudah melakukan usaha dikawasan ini selama tiga tahun terakhir. Analisis dilakukan dengan menggunakan statistik deskriptif dan uji beda Kolmogorov Smirnov.

Dari kajian yang dilakukan ditemukan bahwa pengembangan kawasan wisata Pantai Padang telah memberikan dampak yang positif bagi usaha pedagang kecil makanan dan minuman, aneka mainan anak-anak, dan jasa penyewaan sepeda. Dari penelitian juga ditemukan terdapat perbedaan yang berarti dalam kehidupan usaha pedagang kecil sebelum tahun 2012 dengan sesudah tahun 2014. Perbedaan tersebut terlihat nyata antara lain dalam hal penjualan/total revenue, penyediaan lapangan kerja/woker job, serta perolehan keuntungan/profit. Namun pada sisi lain pera pedagang masih tetap diselimuti rasa kekuatiran tentang kelangsungan usaha yang mereka lakukan, mengingat bangunan tempat usaha yang mereka gunakan masih bersifat sementara dan tidak memiliki izin usaha resmi, sehingga sewaktu-waktu kuatir akan digusur. Disamping itu para pedagang juga menyatakan pelatihan dan bimbingan yang diberikan pemerintah daerah terhadap mereka masih sangat minim, baik aspek produksi, pemasaran, sumbedaya manusia, keuangan dan pembukuan. Mereka berharap pemerintah daerah dapat lebih meningkatkan kedulian kepada mereka melalui program-program pelatihan, pendidikan, studi banding disamping menyediakan tempat usaha permanen yang aman dan nyaman untuk berdagang. Pemerintah kota hendaknya jangan hanya melakukan pembangunan fisik kawasan semata, akan tetapi makin banyak pula melakukan pemberdayaan bagi pedagang guna mendukung pengembangan kawasan wisata ini dimasa datang.

Universitas Muhammadiyah Surakarta

Abstract

Penelitian ini bertujuan untuk mengetahui adanya pengaruh EPS, ROE, dan DER terhadap harga saham perusahaan *Transportation Service* yang terdaftar di BEI pada periode 2010 – 2013. Dan untuk mengetahui variabel yang paling berpengaruh terhadap harga saham.

Alat analisis yang digunakan adalah regresi linear berganda, dengan mengambil data *time series* dari tahun 2010 – 2013. Data yang digunakan dalam penelitian ini adalah data sekunder, yaitu data yang berasal dari dokumentasi laporan keuangan perusahaan *Transportation Service* yang terdaftar di BEI pada periode 2010 – 2013.

Berdasarkan hasil analisis data dapat diketahui bahwa data yang digunakan dalam penelitian ini telah memenuhi syarat untuk dapat menggunakan model regresi linear berganda. Sehingga didapatkan hasil bahwa variabel EPS, ROE, dan DER berpengaruh signifikan terhadap variabel harga saham, sedangkan untuk arah hubungan variabel EPS dan DER terhadap variabel harga saham adalah negatif atau berlawanan. Hal ini sesuai dengan hasil uji regresi linear berganda dan uji parsial (uji t). Dan variabel independen mampu memberi penjelasan sebesar 49% terhadap variabel dependen.

Dengan demikian diharapkan perusahaan akan lebih memperhatikan faktor-faktor yang mempengaruhi perubahan harga saham, agar perusahaan dapat tetap mempertahankan posisinya di pasar modal.

Kata kunci: harga saham, EPS, ROE, DER.

THE EFFECT OF CORPORATE GOVERNANCE ON TAX AVOIDANCE: THE EMPIRICAL LINK IN MANUFACTURING FIRMS

Syeldila Sandy, Niki Lukviarman,
Universitas Andalas

Abstract

There has been a proliferation of research published over the past a decade on tax avoidance. However, what stands out in the previous tax avoidance literatures are the multiplicity of views regarding the determinants of tax avoidance and the nature of the relationship between these variables and tax avoidance. The purpose of the study was to investigate the effect of corporate governance on tax avoidance. The secondary data for the study were collected from manufacturing companies that listed in Indonesian Stock Exchange in the period of 2011-2013 by using purposive sampling technique. In order to test hypotheses, the study performed multiple regression analysis. The results indicated that proportion of independent commissioner, audit quality, and audit committee had a negative and significant affect on tax avoidance, while institutional ownership was not consider as a determinant of tax avoidance in Indonesian manufacturing firms

Keywords: Corporate Governance and Tax Avoidance.

Abstract

The financial reports of local governments should be optimally utilized by the users in the process of planning, budgeting and decision-making. But in fact, the financial reports are only used as an accountability tool.

This study aims to identify and analyze the influence of educational level, educational background, knowledge of accounting and the correspondence between the information presented and the information needed by the users on the use of the local government financial reports of Bukittinggi. The users studied are the head of SKPD, the legislators and the auditors of BPK. The research data were collected through questionnaires and were analyzed by using the multiple linear regressions.

The hypothesis results show that the level of education and the educational background of the users do not have a significant effect on the utilization of local government financial reports. While the users' accounting knowledge and the compatibility between the information presented in the financial reports and the information the users need have a significant effect on the utilization of the financial reports.

Keywords: *the utilization of the financial reports, the level of education, the educational background, the knowledge of accounting, the suitability of the information.*
